## OBJECTIVE

To obtain a nursing position where I can further my critical thinking, leadership and nursing skills to provide excellent patient care and be a contributing member to a dynamic healthcare team.

---

## EDUCATION

**Elmira College:** Elmira, NY  
**Major:** Nursing

**Degree:** Bachelor of Science – May 2009  
**GPA:** 3.55 – Cum Laude Honors

---

## WORK EXPERIENCE

**Main Line Health at Paoli Hospital** – Paoli, PA August 2010 – Present

### **Registered Nurse**

- Provides nursing care to patients on busy 32 bed telemetry unit through assessment, planning, nursing diagnosis, intervention and evaluation.
- Responsible for acute and close monitoring for numerous cardiac and medical diagnoses, pre- and post-cath lab procedures and pre-open heart surgery.
- Closely monitors effectiveness of IV cardiac drip medications to acutely ill patients.
- Supervises as charge nurse up to ten person staff (RNs and PCTs) while maintaining full patient assignment. Accountable for staffing, patient assignment and unit operations.
- Quickly and effectively completes computer charting documentation of patient vital signs, nursing assessment and patient care notes.

**United Health Services at Binghamton General** – Binghamton, NY July 2009 – May 2010

### **Registered Nurse**

- Provided nursing care to patients on 25 bed fast-paced medical-surgical unit with telemetry monitoring.
- Maintained safe and therapeutic progressive care and telemetry environment.
- Worked collaboratively with cardiologists, nephrologists, hospitalists and residents to achieve optimum patient care.
- Effectively managed Cardizem, Heparin, Insulin and Nexium drips on acutely ill patients.
- Worked routinely with Dialysis RNs in satellite dialysis unit located on floor to coordinate care for dialysis patients while hospitalized, able to access hemo dialysis catheters for intravenous access.

---
